

Please don't let the new LPFM take over K-Love airwaves here in Austin TX. I count on that station to inspire and inform me in a positive way daily. If we were to lose K-Love I would not listen to any radio, as I feel it's mostly a waste of my time. K-Love serves this community by providing good clean music and talk that doesn't require a 7 second delay ever. Please keep it on the FM translator.
